Colorado Natural Gas, Inc.
Rate Trend Report – Ten-Year History of All Rates and Charges
Advice Letter No. 153 – November 6, 2026

This document lists every change to CNG's rates and charges that took effect from November 6, 2016 through November 2026, the ten years before CNG filed Advice Letter No. 153 with the Colorado Public Utilities Commission on November 6, 2026. Each change shows its effective date, advice letter, Commission decision, proceeding number and the resulting rate for each rate area and customer class. The first row of each table shows the rate in effect on November 6, 2016.

OoL: the tariff went into effect by operation of law without a Commission decision. Gas Cost Adjustment rows show its three components and the total GCA. The DSMCA factor is a percentage applied to base rates. A dash (–) indicates the charge did not apply.

Service and Facility Charge ($ per month)
